SUMMARY

Motivated AI/ML Engineer with knowledge of machine learning, deep learning, and natural language processing. Proficient in Python and skilled in building AI models, analyzing data, and solving real-world problems. Eager to apply my technical skills and contribute to innovative AI solutions.

EDUCATION

Master of Computer Applications (MCA)	CGPA : 7.47
Rungta International Skills University, Bhilai, Chhattisgarh, India	2025 – Present
Bachelor of Science	
Lalit Narayan Mithila University, Darbhanga, Bihar, India	2022 – 2025

PROJECTS

Developed May 2026

Phishing Email Classifier https://github.com/mdamanullah-blip/project_ml.git

- Developed an NLP-based phishing email detection system using machine learning techniques.
- Used text preprocessing, TF-IDF vectorization, and classification algorithms.
- Improved email security by identifying suspicious patterns in phishing attempts.
- Technologies Used :- Python, Scikit-learn, NLP

CERTIFICATIONS

- Python for Data Science, Machine Learning Fundamentals, SQL & Database Management, Foundations of Linux, Collaborate Effectively for professional Success

SKILLS

- AI & Machine Learning | Python | SQL | Data Analysis | DBMS | Problem Solving | Communication | Teamwork | Time Management | Critical Thinking | Microsoft Office Suite

LANGUAGES

- English , Hindi
